Commission Regulation (EU) No 452/2014

of 29 April 2014

laying down technical requirements and administrative procedures related to air operations of third country operators pursuant to Regulation (EC) No 216/2008 of the European Parliament and of the Council

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 216/2008 of the European Parliament and of the Council of 20 February 2008 on common rules in the field of civil aviation and establishing a European Aviation Safety Agency, and repealing Council Directive 91/670/EEC, Regulation (EC) No 1592/2002 and Directive 2004/36/EC, and in particular Article 9(4) thereof,

Whereas:

- (1) According to Regulation (EC) No 216/2008, third country operators involved in commercial air transport operations of aircraft have to comply with the relevant standards of the International Civil Aviation Organisation (ICAO).
- (2) Regulation (EC) No 216/2008 does not apply to third country operators flying over the territory subject to the provisions of the Treaty.
- (3) Regulation (EC) No 216/2008 requires that to the extent that there are no relevant ICAO standards, third country operators have to comply with the relevant essential requirements set out in Annexes I, III, IV and, if applicable, Vb to Regulation (EC) No 216/2008, provided that these requirements are not in conflict with the rights of third countries under international conventions.
- (4) Regulation (EC) No 216/2008 requires that a European Aviation Safety Agency (hereafter referred to as 'the Agency') issues authorisations and continuously monitors authorisations that it has issued. The authorisation is one prerequisite in the process of obtaining an operating permit or equivalent document from the respective EU Member State under existing Air Service Agreements between EU Member States and third countries.
- (5) For the purpose of initial authorisations and continuous monitoring, the Agency is to conduct assessments and is to take any measure to prevent the continuation of an infringement.
- (6) The process of authorisation of third country operators should be simple, proportionate, cost effective, efficient and take account of the results of the ICAO Universal Safety Oversight Audit Programme, ramp inspections and other recognised information on safety aspects with regard to third country operators.
- (7) Assessments of third country operators subject to an operating ban pursuant to Regulation (EC) No 2111/2005 of the European Parliament and of the Council may include an audit on-site the operator's premises. For the purpose of lifting a suspension of an authorisation, the Agency may consider conducting an audit of the third country operator.
- (8) In order to ensure a smooth transition and a high level of civil aviation safety in the European Union, implementing measures should take into consideration the recommended practices and guidance documents agreed under the auspices of ICAO.
- (9) It is necessary to provide sufficient time for the aeronautical industry and the Agency's administration to adapt to the new regulatory framework and to recognise under certain conditions operating permits or equivalent documents issued by a Member State to operate into, within or out of its territory.
- (10) The European Aviation Safety Agency prepared draft implementing rules and submitted them as an opinion to the Commission in accordance with Article 19(1) of Regulation (EC) No 216/2008.
- (11) The measures provided for in this Regulation are compatible with the opinion of the Committee established by Article 65 of Regulation (EC) No 216/2008,

HAS ADOPTED THIS REGULATION:

Article 1

Subject matter and scope

This Regulation lays down detailed rules for third country operators of aircraft referred to in Article 4(1)(d) of Regulation (EC) No 216/2008 engaged in commercial air transport operations into, within or out of the territory subject to the provisions of the Treaty, including conditions for issuing, maintaining, amending, limiting, suspending or revoking their authorisations, the privileges and responsibilities of the holders of authorisations as well as conditions under which operations shall be prohibited, limited or subject to certain conditions in the interest of safety.

Article 2

Definitions

For the purposes of this Regulation:

- (1) ‘alternative means of compliance’ are those that propose an alternative to an existing Acceptable Means of Compliance (AMC) or those that propose new means to establish compliance with Regulation (EC) No 216/2008 and its Implementing Rules for which no associated AMC have been adopted by the Agency;
- (2) ‘commercial air transport (CAT) operation’ means an aircraft operation to transport passengers, cargo or mail for remuneration or other valuable consideration;
- (3) ‘flight’ means a departure from a specified aerodrome towards a specified destination aerodrome;
- (4) ‘third country operator’ means any operator holding an air operator certificate issued by a third country.

Article 3

Authorisations

Third country operators shall only engage in commercial air transport operations within, into or out of the territory subject to the provisions of the Treaty if they comply with the requirements of Annex 1 and hold an authorisation issued by the Agency in accordance with Annex 2 to this Regulation.

Article 4

Entry into force

1. This Regulation shall enter into force on the 20th day following that of its publication in the *Official Journal of the European Union*.

It shall apply from the 20th day following that of its publication in the *Official Journal of the European Union*.

2. By way of derogation from the second subparagraph of paragraph 1, Member States that at the date of entry into force of this Regulation are issuing operating permits or equivalent documents to third country operators in accordance with their national law shall continue to do so. The third country operators shall comply with the scope and privileges defined in the permit or equivalent document granted by the Member State until the Agency has taken a decision in accordance with Annex 2 to this Regulation. Member States shall inform the Agency of the issue of such operating permits or equivalent documents.

After the date the Agency has taken a decision for the relevant third country operator, or after a maximum period of 30 months after entry into force of this Regulation, whichever comes sooner, the Member State shall no longer perform a safety assessment of that third country operator in accordance with their national law when issuing operating permits.

3. Third country operators that at the date of entry into force hold an operating permit or equivalent document, shall submit an application for an authorisation to the Agency no later than 6 months after entry into force of this Regulation. The application shall contain information about any operating permits granted by a Member State.

4. Upon receiving an application, the Agency shall assess the third country operator's compliance with the applicable requirements. The assessment shall be completed no later than 30 months after entry into force of this Regulation.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

TCO.105 Means of compliance

- (a) Alternative means of compliance to the AMC adopted by the Agency may be used by a third country operator to establish compliance with Regulation (EC) No 216/2008 and Part-TCO.
- (b) When a third country operator subject to an authorisation wishes to use an alternative means of compliance to the AMC adopted by the Agency to establish compliance with Regulation (EC) No 216/2008 and Part-TCO, it shall, prior to implementing it, notify it to the Agency with a full description of the alternative means of compliance. The description shall include any revisions to manuals or procedures that may be relevant, as well as an assessment demonstrating that the Implementing Rules are met.

The third country operator may implement these alternative means of compliance subject to prior approval by the Agency and upon receipt of the notification as prescribed in ART.105 in Annex 2 (hereafter referred to as 'Part-ART').

TCO.110 Mitigating measures

- (b) The third country operator shall demonstrate to the Agency that these measures ensure an equivalent level of safety to that achieved by the standard to which differences have been notified.

TCO.115 Access

- (a)

The third country operator shall ensure that any person authorised by the Agency or the Member State in whose territory one of its aircraft has landed will be permitted to board such aircraft, at any time, with or without prior notice to:

SECTION II

Authorisation, monitoring and enforcement

ART.200 Initial evaluation procedure — general

- (a) Upon receiving an application for an authorisation in accordance with TCO.300, the Agency shall assess the third country operator's compliance with applicable requirements in Part-TCO.
- (b) The initial assessment shall be completed within 30 days after receipt of the application or 30 days before the intended starting date of operation, whichever is the later.

When the initial assessment requires a further assessment or an audit, the assessment period shall be extended for the duration of the further assessment or the audit, as appropriate.
- (c) The initial assessment shall be based on:
 - (1) documentation and data provided by the third country operator;
 - (2) relevant information on the safety performance of the third country operator, including ramp inspection reports, information reported in accordance with ARO.RAMP.145(c), recognised industry standards, accidents records and enforcement measures taken by a third country;

- (d) The Agency shall, in consultation with the Member States, identify those ICAO standards for which it may accept mitigating measures in case the State of the operator or the State of registry has notified a difference to ICAO. The Agency shall accept the mitigating measure when it is satisfied that these measures ensure an equivalent level of safety to that achieved by the standard to which differences have been notified.
- (e)

When the Agency cannot establish a sufficient level of confidence in the third country operator and/or the State of the operator during the initial assessment, it shall:

- (1) refuse the application when the outcome of the assessment indicates that further assessment will not result in the issue of an authorisation; or
- (2) conduct further assessments to the extent necessary to establish that the intended operation will be conducted in compliance with the applicable requirements of Part-TCO.

ART.205 Initial evaluation procedure — third country operators subject to an operating ban

- (a) Upon receiving an application for an authorisation from an operator subject to an operating ban or an operational restriction pursuant to Regulation (EC) No 2111/2005 the Agency shall apply the relevant assessment procedure as described in ART.200.
- (b) When the operator is subject to an operating ban due to the State of the operator not performing adequate oversight, the Agency shall inform the Commission for further assessment of the operator and the State of Operator under Regulation (EC) No 2111/2005.
- (c) The Agency shall perform an audit when:
 - (1) the third country operator agrees to be audited;
 - (2) the outcome of the assessments referred to in (a) and (b) indicates that there is a possibility that the audit will have a positive result; and
 - (3) the audit can be performed at the third country operator's facilities without the risk of compromising the security of the Agency's personnel.
- (d) The audit of the third country operator may include an assessment of the oversight conducted by the State of the operator when there is evidence of major deficiencies in the oversight of the applicant.
- (e) The Agency shall inform the Commission of the results of the audit.

ART.210 Issue of an authorisation

- (a) The Agency shall issue the authorisation, including the associated specifications, when:
 - (1) it is satisfied that the third country operator holds a valid AOC or equivalent document and associated operations specifications issued by the State of the operator;
 - (2) it is satisfied that the third country operator is authorised by the State of the operator to conduct operations into the EU;
 - (3) it is satisfied that the third country operator has established:
 - (i) compliance with the applicable requirements of Part-TCO;
 - (ii) transparent, adequate and timely communication in response to a further assessment and/or an audit of the Agency, if applicable; and
 - (iii) a timely and successful corrective action submitted in response to an identified non-compliance, if any;

(4) there is no evidence of major deficiencies in the ability of the State of the operator or the State of registry, as applicable, to certify and oversee the operator and/or aircraft in accordance with the applicable ICAO standards; and

(5) the applicant not being subject to an operating ban pursuant to Regulation (EC) No 2111/2005.

(b)

The authorisation shall be issued for an unlimited duration.

The privileges and the scope of the activities that the third country operator is authorised to conduct shall be specified in the specifications attached to the authorisation.

(c)

The Agency shall agree with the third country operator the scope of changes to the third country operator not requiring prior authorisation.

ART.215 Monitoring

(b)

This assessment shall:

(1) take into account safety relevant documentation and data provided by the third country operator;

(2) take into account relevant information on the safety performance of the third country operator, including ramp inspection reports, information reported in accordance with ARO.RAMP.145(c), recognised industry standards, accidents records and enforcement measures taken by a third country;

(3) take into account relevant information on the oversight capabilities of the State of the operator or State of registry, as applicable, including the outcome of audits carried out under international conventions or State safety assessment programmes;

(4) take into account decisions and investigations pursuant to Regulation (EC) No 2111/2005 or joint consultations pursuant Regulation (EC) No 473/2006;

(5) take into account previous assessments or audits, if carried out; and

(6) provide the Agency with the evidence needed in case further action is required, including the measures foreseen by ART.235.

(c)

The scope of monitoring defined in (a) and (b) shall be determined on the basis of the results of past authorisation and/or monitoring activities.

(d)

Where, based on available information, the safety performance of the third country operator and/or the oversight capabilities of the State of the operator are suspected to have decreased below the applicable standards contained in the Annexes to the Convention on International Civil Aviation, the Agency shall conduct further assessments to the extent necessary to establish that the intended operation will be conducted in compliance with the applicable requirements of Part-TCO.

(e)

The Agency shall collect and process any safety information deemed relevant for monitoring.

ART.220 Monitoring programme

- (a) The Agency shall establish and maintain a monitoring programme covering the activities required by ART.215 and, if applicable, by Subpart ARO.RAMP.
- (b) The monitoring programme shall be developed taking into account the results of past authorisation and/or monitoring activities.
- (c) The Agency shall perform a review of third country operators at intervals not exceeding 24 months.

The interval may be reduced if there are indications that the safety performance of the third country operator and/or the oversight capabilities of the State of the operator may have decreased below the applicable standards contained in the Annexes to the Convention on International Civil Aviation.

The Agency may extend the interval to a maximum of 48 months if it has established that, during the previous monitoring period:

- (1) there are no indications that the overseeing authority of the State of the operator fails to perform effective oversight on operators under its oversight responsibility;
 - (2) the third country operator has continuously and timely reported changes referred to in TCO.315;
 - (3) no level 1 findings, referred to in ART.230(b), have been issued; and
 - (4) all corrective actions have been implemented within the time period accepted or extended by the Agency as defined in ART.230(e)(1).
- (d) The monitoring programme shall include records of the dates of monitoring activities, including meetings.

ART.225 Changes

- (a) Upon receiving an application for a change that requires prior authorisation, the Agency shall apply the relevant procedure as described in ART.200, restricted to the extent of the change.
- (b) The Agency shall prescribe the conditions under which the third country operator may operate within the scope of its authorisation during the change, unless the Agency determines that the authorisation needs to be suspended.
- (c) For changes not requiring prior authorisation, the Agency shall assess the information provided in the notification sent by the third country operator in accordance with TCO.315 to verify compliance with the applicable requirements. In case of any non-compliance, the Agency shall:
 - (1) notify the third country operator about the non-compliance and request a revised proposal to achieve compliance; and
 - (2) in case of level 1 or level 2 findings, act in accordance with ART.230 and ART.235, as appropriate.

ART.230 Findings and corrective actions

- (a) The Agency shall have a system to analyse findings for their safety significance.
- (b)

A level 1 finding shall be issued by the Agency when any significant non-compliance is detected with the applicable requirements of Regulation (EC) No 216/2008 and Part-TCO, or with the terms of the authorisation that lowers safety or seriously hazards flight safety.

The level 1 findings shall include, but are not limited to:

- (1) failure to give the Agency access to the third country operator's facilities as defined in TCO.115(b) during normal operating hours and after a written request;
 - (2) implementing changes requiring prior authorisation without having received an authorisation as defined in ART.210;
 - (3) obtaining or maintaining the validity of the authorisation by falsification of documentary evidence;
 - (4) evidence of malpractice or fraudulent use of the authorisation.
- (c) A level 2 finding shall be issued by the Agency when any non-compliance is detected with the applicable requirements of Regulation (EC) No 216/2008 and Part-TCO, or with the terms of the authorisation which could lower safety or hazard flight safety.
- (d) When a finding is detected during monitoring, the Agency shall, without prejudice to any additional action required by Regulation (EC) No 216/2008 and its Implementing Rules, communicate the finding to the third country operator in writing and request corrective action to eliminate or mitigate the root cause in order to prevent recurrence of the non-compliance(s) identified.
- (e) In the case of level 2 findings, the Agency shall:

- (1) grant the third country operator a corrective action implementation period appropriate to the nature of the finding. At the end of the period, and subject to the nature of the finding, the Agency may extend the period subject to a second satisfactory corrective action plan agreed by the Agency; and
- (2) assess the corrective action and implementation plan proposed by the third country operator. If the assessment concludes that it contains root cause(s) analysis and course(s) of action to effectively eliminate or mitigate the root cause(s) to prevent recurrence of the non-compliance(s), the corrective action and implementation plan shall be accepted.

Where a third country operator fails to submit an acceptable corrective action plan referred to in ART.230(e)(1), or to perform the corrective action within the time period accepted or extended by the Agency, the finding shall be raised to a level 1 finding and action taken as laid down in ART.235(a).

- (f) The Agency shall record and notify the State of the operator or the State of registry, as applicable, of all findings it has raised.

ART.235 Limitation, suspension and revocation of authorisations

- (a) Without prejudice to any additional enforcement measures, the Agency shall take action to limit or suspend the authorisation in case of:
- (1) a level 1 finding;
 - (2) verifiable evidence that the State of operator or State of registry, as applicable, is not capable to certify and oversee the operator and/or aircraft in accordance with the applicable ICAO standard; or
 - (3) the third country operator being subject to a measure pursuant to paragraphs (1) and (2) of Article 6 of Regulation (EC) No 2111/2005.
- (b) An authorisation shall be suspended for a maximum period of 6 months. At the end of the 6-month period the Agency may extend the suspension period for an additional 3 months.

- (c) The limitation or suspension shall be lifted when the Agency is satisfied that successful corrective action has been taken by the third country operator and/or the State of the operator.
- (d) In considering the lifting of a suspension the Agency shall conduct an audit of the third country operator when the conditions in ART.205(c) are met. In case the suspension is due to major deficiencies in the oversight of the applicant by the State of the operator or State of registry, as applicable, the audit may include an assessment with the aim to verify if these oversight deficiencies have been corrected.
- (e) The Agency shall revoke the authorisation when:
 - (1) the period referred to in (b) has expired; or
 - (2) the third country operator becomes subject to an operating ban pursuant to Regulation (EC) No 2111/2005.
- (f) If following a limitation referred to in (a) an operational restriction is imposed on the third country operator in accordance with Regulation (EC) No 2111/2005, the Agency shall maintain such limitation until the operational restriction has been withdrawn.
