# **Regulation (EC) No 1060/2009 of the European Parliament and of the Council**

**of 16 September 2009**

**on credit rating agencies**

**(Text with EEA relevance)**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 95 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Economic and Social Committee,

Having regard to the opinion of the European Central Bank,

Acting in accordance with the procedure laid down in Article 251 of the Treaty,

Whereas:

- (1) Credit rating agencies play an important role in global securities and banking markets, as their credit ratings are used by investors, borrowers, issuers and governments as part of making informed investment and financing decisions. Credit institutions, investment firms, insurance undertakings, assurance undertakings, reinsurance undertakings, undertakings for collective investment in transferable securities (UCITS) and institutions for occupational retirement provision may use those credit ratings as the reference for the calculation of their capital requirements for solvency purposes or for calculating risks in their investment activity. Consequently, credit ratings have a significant impact on the operation of the markets and on the trust and confidence of investors and consumers. It is essential, therefore, that credit rating activities are conducted in accordance with the principles of integrity, transparency, responsibility and good governance in order to ensure that resulting credit ratings used in the Community are independent, objective and of adequate quality.
- (2) Currently, most credit rating agencies have their headquarters outside the Community. Most Member States do not regulate the activities of credit rating agencies or the conditions for the issuing of credit ratings. Despite their significant importance for the functioning of the financial markets, credit rating agencies are subject to Community law only in limited areas, notably under Directive 2003/6/EC of the European Parliament and of the Council of 28 January 2003 on insider dealing and market manipulation. Moreover, Directive 2006/48/EC of the European Parliament and of the Council of 14 June 2006 relating to the taking up and pursuit of the business of credit institutions and Directive 2006/49/EC of the European Parliament and of the Council of 14 June 2006 on the capital adequacy of investment firms and credit institutions refer to credit rating agencies. It is therefore important to lay down rules ensuring that all credit ratings issued by the credit rating agencies registered in the Community are of adequate quality and issued by credit rating agencies subject to stringent requirements. The Commission will continue to work with its international partners to ensure convergence of the rules applying to credit rating agencies. It should be possible to exempt certain central banks issuing credit ratings from this Regulation provided that they fulfil the relevant applicable conditions which ensure the independence and integrity of their credit rating activities and which are as stringent as the requirements provided for in this Regulation.
- (3) This Regulation should not create a general obligation for financial instruments or financial obligations to be rated under this Regulation. In particular, it should not require undertakings for collective investment in transferable securities (UCITS) as defined in Council Directive 85/611/EEC of 20 December 1985 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) or institutions for occupational retirement provision as defined in Directive 2003/41/EC of the European Parliament and of the Council of 3 June 2003 on the activities and supervision of institutions for occupational retirement provision to invest only in financial instruments which are rated under this Regulation.
- (4) This Regulation should not create a general obligation for financial institutions or investors to invest only in securities for which a prospectus has been published in accordance with Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading and Commission Regulation (EC) No 809/2004/EC of 29 April 2004 implementing Directive 2003/71/EC as regards information contained in prospectuses as well as the format, incorporation by reference and publication of such prospectuses and dissemination of advertisements and which are rated under this Regulation. In addition, this Regulation should not require the issuers or offerors or persons asking for admission to trading on a regulated market to obtain credit ratings for securities which are subject to the requirement to publish a prospectus under Directive 2003/71/EC and Regulation (EC) No 809/2004.
- (5) A prospectus published under Directive 2003/71/EC and Regulation (EC) No 809/2004 should contain clear and prominent information on whether or not the credit rating of the respective securities is issued by a credit rating agency established in the Community and registered under this Regulation. However, nothing in this Regulation should prevent persons responsible for publishing a prospectus under Directive 2003/71/EC and Regulation (EC) No 809/2004 from including any material information in the prospectus, including credit ratings issued in third countries and related information.

- (6) In addition to issuing credit ratings and performing credit rating activities, credit rating agencies should also be able to perform ancillary activities on a professional basis. The performance of ancillary activities should not compromise the independence or integrity of credit rating agencies' credit rating activities.
- (7) This Regulation should apply to credit ratings issued by credit rating agencies registered in the Community. The principal aim of this Regulation is to protect the stability of financial markets and investors. Credit scores, credit scoring systems and similar assessments related to obligations arising from consumer, commercial or industrial relationships should not fall within the scope of this Regulation.
- (8) Credit rating agencies should, on a voluntary basis, apply the Code of Conduct Fundamentals for credit rating agencies issued by the International Organisation of Securities Commissions (IOSCO Code). In 2006, a Communication from the Commission on credit rating agencies invited the Committee of European Securities Regulators (CESR), re-established by Commission Decision 2009/77/EC, to monitor compliance with the IOSCO Code and report back to the Commission on an annual basis.
- (9) The European Council of 13 and 14 March 2008 agreed to a set of conclusions to respond to the main weaknesses identified in the financial system. One of the objectives was to improve market functioning and incentive structures, including the role of credit rating agencies.
- (10) Credit rating agencies are considered to have failed, first, to reflect early enough in their credit ratings the worsening market conditions, and second, to adjust their credit ratings in time following the deepening market crisis. The most appropriate manner in which to correct those failures is by measures relating to conflicts of interest, the quality of the credit ratings, the transparency and internal governance of the credit rating agencies, and the surveillance of the activities of the credit rating agencies. The users of credit ratings should not rely blindly on credit ratings but should take utmost care to perform own analysis and conduct appropriate due diligence at all times regarding their reliance on such credit ratings.
- (11) It is necessary to lay down a common framework of rules regarding the enhancement of the quality of credit ratings, in particular the quality of credit ratings to be used by financial institutions and persons regulated by harmonised rules in the Community. In the absence of such a common framework, there is a risk that Member States take diverging measures at national level having a direct negative impact on, and creating obstacles to, the good functioning of the internal market, since the credit rating agencies issuing credit ratings for the use of financial institutions in the Community would be subject to different rules in different Member States. Moreover, diverging quality requirements as regards credit ratings could lead to different levels of investor and consumer protection. Users should, furthermore, be able to compare credit ratings issued in the Community with credit ratings issued internationally.
- (12) This Regulation should not affect the use made of credit ratings by persons other than those referred to in this Regulation.
- (13) It is desirable to provide for the use of credit ratings issued in third countries for regulatory purposes in the Community provided that they comply with requirements which are as stringent as the requirements provided for in this Regulation. This Regulation introduces an endorsement regime allowing credit rating agencies established in the Community and registered in accordance with its provisions to endorse credit ratings issued in third countries. When endorsing a credit rating issued in a third country, credit rating agencies should determine and monitor, on an ongoing basis, whether credit rating activities resulting in the issuing of such a credit rating comply with requirements for the issuing of credit ratings which are as stringent as those provided for in this Regulation, achieving the same objective and effects in practice.
- (14) In order to respond to concerns that lack of establishment in the Community may be a serious impediment to effective supervision in the best interests of the financial markets in the Community, such an endorsement regime should be introduced for credit rating agencies that are affiliated or work closely with credit rating agencies established in the Community. Nevertheless, it may be necessary to adjust the requirement of physical presence in the Community in certain cases, notably as regards smaller credit rating agencies from third countries with no presence or affiliation in the Community. A specific regime of certification for such credit rating agencies should therefore be established, in so far as they are not systemically important for the financial stability or integrity of the financial markets of one or more Member States.
- (15) Certification should be possible after determination by the Commission of the equivalence of the legal and supervisory framework of a third country to the requirements of this Regulation. The equivalence mechanism envisaged should not grant automatic access to the Community but should offer the possibility for qualifying credit rating agencies from a third country to be assessed on a case-by-case

basis and be granted an exemption from some of the organisational requirements for credit rating agencies active in the Community, including the requirement of physical presence in the Community.

- (16) This Regulation should also require a third-country credit rating agency to meet criteria which are general prerequisites for the integrity of its credit rating activities in order to prevent interference with the content of credit ratings by the competent authorities and other public authorities of that third country, and to provide for an adequate conflict of interests policy, rotation of rating analysts and periodic and ongoing disclosure.
- (17) Another important prerequisite for a sound endorsement regime and an equivalence system is the existence of sound cooperation arrangements between competent authorities of home Member States and the relevant competent authorities of third-country credit rating agencies.
- (18) A credit rating agency that has endorsed credit ratings issued in a third country should be fully and unconditionally responsible for such endorsed credit ratings and for the fulfilment of the relevant conditions referred to in this Regulation.
- (19) This Regulation should not apply to credit ratings that a credit rating agency produces pursuant to an individual order and provides exclusively to the person who ordered it and which are not intended for public disclosure or distribution by subscription.
- (20) Investment research, investment recommendations and other opinions about a value or a price for a financial instrument or a financial obligation should not be considered to be credit ratings.
- (21) An unsolicited credit rating, namely a credit rating not initiated at the request of the issuer or rated entity, should be clearly identified as such and should be distinguished from solicited credit ratings by appropriate means.
- (22) In order to avoid potential conflicts of interest, credit rating agencies focus in their professional activity on the issuing of credit ratings. A credit rating agency should not be allowed to carry out consultancy or advisory services. In particular, a credit rating agency should not make proposals or recommendations regarding the design of a structured finance instrument. However, credit rating agencies should be able to provide ancillary services where this does not create potential conflicts of interest with the issuing of credit ratings.
- (23) Credit rating agencies should use rating methodologies that are rigorous, systematic, continuous and subject to validation including by appropriate historical experience and back-testing. Such a requirement should not, however, provide grounds for interference with the content of credit ratings and methodologies by the competent authorities and the Member States. Similarly, the requirement that credit rating agencies review credit ratings at least annually should not compromise the obligation on credit rating agencies to monitor credit ratings on a continuous basis and review credit ratings as necessary. Those requirements should not be applied in such a way as to prevent new credit rating agencies from entering the market.
- (24) Credit ratings should be well-founded and solidly substantiated, in order to avoid rating compromises.
- (25) Credit rating agencies should disclose information to the public on the methodologies, models and key rating assumptions which they use in their credit rating activities. The level of detail concerning the disclosure of information concerning models should be such as to give adequate information to the users of credit ratings in order to perform their own due diligence when assessing whether to rely or not on those credit ratings. Disclosure of information concerning models should not, however, reveal sensitive business information or seriously impede innovation.
- (26) Credit rating agencies should establish appropriate internal policies and procedures in relation to employees and other persons involved in the credit rating process in order to prevent, identify, eliminate or manage and disclose any conflicts of interest and ensure at all times the quality, integrity and thoroughness of the credit rating and review process. Such policies and procedures should, in particular, include the internal control mechanisms and compliance function.
- (27) Credit rating agencies should avoid situations of conflict of interest and manage those conflicts adequately when they are unavoidable in order to ensure their independence. Credit rating agencies should disclose conflicts of interest in a timely manner. They should also keep records of all significant threats to the independence of the credit rating agency and that of its employees and other persons involved in the credit rating process, as well as the safeguards applied to mitigate those threats.
- (28) A credit rating agency or group of credit rating agencies should maintain arrangements for sound corporate governance. In determining its corporate governance arrangements, the credit rating agency or group of credit rating agencies should have regard to the need to ensure that it issues credit ratings that are independent, objective and of adequate quality.

- (29) In order to ensure the independence of the credit rating process from the business interest of the credit rating agency as a company, credit rating agencies should ensure that at least one third, but no less than two, of the members of the administrative or supervisory board are independent in a manner consistent with point 13 in Section III of Commission Recommendation 2005/162/EC of 15 February 2005 on the role of non-executive or supervisory directors of listed companies and on the committees of the (supervisory) board. Moreover, it is necessary that the majority of the senior management, including all independent members of the administrative or supervisory board, have sufficient expertise in appropriate areas of financial services. The compliance officer should report regularly on the carrying out of his or her duties to the senior management and the independent members of the administrative or supervisory board.
- (30) In order to avoid conflicts of interest, the compensation of independent members of the administrative or supervisory board should not depend on the business performance of the credit rating agency.
- (31) A credit rating agency should allocate a sufficient number of employees with appropriate knowledge and experience to its credit rating activities. In particular, the credit rating agency should ensure that adequate human and financial resources are allocated to the issuing, monitoring and updating of credit ratings.
- (32) In order to take account of the specific condition of credit rating agencies that have fewer than 50 employees, the competent authorities should be able to exempt such credit rating agencies from some of the obligations laid down by this Regulation as regards the role of the independent members of the board, the compliance function and the rotation mechanism, and provided that those credit rating agencies are able to demonstrate that they comply with specific conditions. The competent authorities should examine, in particular, whether the size of a credit rating agency has been determined in such a way as to avoid compliance with the requirements of this Regulation by the credit rating agency or by a group of credit rating agencies. The application of the exemption by competent authorities of Member States should be made in such a way as to avoid the risks of fragmenting the internal market and to guarantee the uniform application of Community law.
- (33) Long-lasting relationships with the same rated entities or their related third parties could compromise the independence of rating analysts and persons approving credit ratings. Those analysts and persons should therefore be subject to an appropriate rotation mechanism which should provide for a gradual change in analytical teams and credit rating committees.
- (34) Credit rating agencies should ensure that methodologies, models and key rating assumptions such as mathematical or correlation assumptions used for determining credit ratings are properly maintained, up-to-date and subject to a comprehensive review on a periodic basis and that their descriptions are published in a manner permitting comprehensive review. In cases where the lack of reliable data or the complexity of the structure of a new type of financial instrument, in particular structured finance instruments, raises serious questions as to whether the credit rating agency can produce a credible credit rating, the credit rating agency should not issue a credit rating or should withdraw an existing credit rating. Changes in the quality of information available for monitoring an existing credit rating should be disclosed with that review and, if appropriate, a revision of the credit rating should be made.
- (35) In order to ensure the quality of credit ratings, a credit rating agency should take measures to ensure that the information it uses in assigning a credit rating is reliable. For that purpose, a credit rating agency should be able to envisage, inter alia, reliance on independently audited financial statements and public disclosures; verification by reputable third-party services; random sampling examination of the information received; or contractual provisions clearly stipulating liability for the rated entity or its related third parties, if the information provided under the contract is knowingly materially false or misleading or if the rated entity or its related third parties fail to conduct reasonable due diligence regarding the accuracy of the information as specified under the terms of the contract.
- (36) This Regulation is without prejudice to the duty of credit rating agencies to protect the right to privacy of natural persons with respect to the processing of personal data in accordance with Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data.
- (37) It is necessary for credit rating agencies to establish proper procedures for the regular review of methodologies, models and key rating assumptions used by the credit rating agency in order to be able to properly reflect the changing conditions in the underlying asset markets. With a view to ensuring transparency, disclosure of any material modification to the methodologies and practices, procedures and processes of credit rating agencies should be made prior to their coming into effect, unless extreme market conditions require an immediate change in the credit rating.

- (38) A credit rating agency should indicate any appropriate risk warning, including a sensitivity analysis of the relevant assumptions. That analysis should explain how various market developments that move the parameters built into the model may influence the credit rating changes (for example volatility). The credit rating agency should ensure that the information on historical default rates of its rating categories is verifiable and quantifiable and provides a sufficient basis for interested parties to understand the historical performance of each rating category and if and how rating categories have changed. If the nature of the credit rating or other circumstances makes a historical default rate inappropriate, statistically invalid, or otherwise likely to mislead the users of the credit rating, the credit rating agency should provide appropriate clarification. That information should, to the extent possible, be comparable with any existing industry patterns in order to assist investors in drawing performance comparisons between different credit rating agencies.
- (39) In order to reinforce transparency of credit ratings and contribute to the protection of investors, CESR should maintain a central repository where information on the past performances of credit rating agencies and information about credit ratings issued in the past should be kept. Credit rating agencies should provide information to that repository in standardised form. CESR should make that information available to the public and should, annually, publish summary information on the main developments observed.
- (40) Under certain circumstances structured finance instruments may have effects which are different from traditional corporate debt instruments. It could be misleading for investors to apply the same rating categories to both types of instruments without further explanation. Credit rating agencies should play an important role in raising awareness of the users of credit ratings about the specificities of the structured finance products in relation to traditional ones. Credit rating agencies should therefore clearly differentiate between rating categories used for rating structured finance instruments on the one hand, and rating categories used for other financial instruments or financial obligations on the other, by adding an appropriate symbol to the rating category.
- (41) Credit rating agencies should take measures to avoid situations where issuers request the preliminary rating assessment of the structured finance instrument concerned from a number of credit rating agencies in order to identify the one offering the best credit rating for the proposed structure. Issuers should also avoid applying such practices.
- (42) A credit rating agency should keep records of the methodology for credit ratings and regularly update changes thereto and also keep a record of the substantial elements of the dialogue between the rating analyst and the rated entity or its related third parties.
- (43) In order to ensure a high level of investor and consumer confidence in the internal market, credit rating agencies which issue credit ratings in the Community should be subject to registration. Such a registration is the principal prerequisite for credit rating agencies to issue credit ratings intended to be used for regulatory purposes in the Community. It is therefore necessary to lay down the harmonised conditions and the procedure for the granting, suspension and withdrawal of such registration.
- (44) This Regulation should not replace the established process of recognising External Credit Assessment Institutions (ECAIs) in accordance with Directive 2006/48/EC. The ECAIs already recognised in the Community should apply for registration in accordance with this Regulation.
- (45) A credit rating agency registered by the competent authority of the relevant Member State should be allowed to issue credit ratings throughout the Community. It is therefore necessary to establish a single registration procedure for each credit rating agency which is effective throughout the Community. The registration of a credit rating agency should become effective once the registration decision issued by the competent authority of the home Member State has taken effect under relevant national law.
- (46) It is necessary to establish a single point of entry for the submission of applications for registration. CESR should receive applications for registration and effectively inform the competent authorities in all the Member States. CESR should also provide advice in respect of the completeness of the application to the competent authority of the home Member State. The examination of applications for registration should be carried out at national level by the relevant competent authority. In order to deal efficiently with credit rating agencies, competent authorities should set up operational networks (colleges) supported by an efficient information technology infrastructure. CESR should establish a subcommittee specialised in the field of credit ratings of each of the asset classes rated by credit rating agencies.
- (47) Some credit rating agencies are composed of several legal entities which, together, form a group of credit rating agencies. When registering each of the credit rating agencies being part of such a group, the competent authorities of the Member States concerned should coordinate the examination of the applications submitted by credit rating agencies belonging to the same group and the decision-making concerning the granting of registration. It should be possible, however, to refuse registration to a credit

rating agency within a group of credit rating agencies when such a credit rating agency does not meet the requirements for registration while other members of such a group comply with all of the requirements for registration under this Regulation. As the college should not be entrusted with power to issue legally binding decisions, the competent authorities of home Member States of the members of the group of credit rating agencies should each issue an individual decision in respect of the credit rating agency established on the territory of the Member State concerned.

- (48) The college should represent the effective platform for an exchange of supervisory information among competent authorities, coordination of their activities and supervisory measures necessary for the effective supervision of credit rating agencies. In particular, the college should facilitate the monitoring of the fulfilment of conditions for the endorsement of credit ratings issued in third countries, certification, outsourcing arrangements, and exemptions provided for in this Regulation. The activities of the college should contribute to the harmonised application of rules under this Regulation and to the convergence of supervisory practices.
- (49) In order to enhance the practical coordination of activities of the college, its members should select among themselves a facilitator. The facilitator should chair the meetings of the college, establish its written coordination arrangements and coordinate its actions. During the registration process, the facilitator should assess the need to extend the period for examination of applications, coordinate such examination, and liaise with CESR.
- (50) In November 2008, the Commission set up a high level group with the task of examining the future European supervisory architecture in the field of financial services, including the role of CESR.
- (51) The current supervisory architecture should not be considered as the long-term solution for the oversight of credit rating agencies. Colleges of competent authorities, which are expected to streamline supervisory cooperation and convergence in this area in the Community, are a considerable step forward, but may not substitute all the advantages of more consolidated supervision of the credit rating industry. The crisis in international financial markets has clearly demonstrated that it is appropriate to examine further the need for wide-ranging reforms of the regulatory and supervisory model of the Community financial sector. In order to achieve the necessary level of Community supervisory convergence and cooperation and to underpin the stability of the financial system, further wide-ranging reforms of the regulatory and supervisory model of the Community financial sector are highly needed and should be put forward swiftly by the Commission with due consideration to the conclusions presented by the group of experts chaired by Jacques de Larosière on 25 February 2009. The Commission should, as soon as possible, and in any event by 1 July 2010, report to the European Parliament, the Council and other institutions concerned any findings in this respect and should put forward any legislative proposal needed to tackle the shortcomings identified as regards supervisory coordination and cooperation arrangements.
- (52) Significant changes in the endorsement regime, outsourcing arrangements as well as the opening and closing of branches should, inter alia, be considered as material changes to the conditions for initial registration of a credit rating agency.
- (53) The supervision of a credit rating agency should be carried out by the competent authority of the home Member State in cooperation with the competent authorities of the other Member States concerned, using the relevant college and keeping CESR appropriately involved.
- (54) The ability of the competent authority of the home Member State and other members of the relevant college to assess and monitor compliance of a credit rating agency with the obligations provided for under this Regulation should not be limited by any outsourcing arrangements entered into by the credit rating agency. The credit rating agency should remain responsible for any of its obligations under this Regulation in the event of the use of outsourcing arrangements.
- (55) In order to maintain a high level of investor and consumer confidence and enable the ongoing supervision of credit ratings issued in the Community, credit rating agencies whose headquarters are located outside the Community should be required to set up a subsidiary in the Community in order to allow for the efficient supervision of their activities in the Community and the effective use of the endorsement regime. The emergence of new actors on the credit rating agency market should also be encouraged.
- (56) The competent authorities should be able to use powers defined in this Regulation in relation to credit rating agencies, persons involved in credit rating activities, rated entities and related third parties, third parties to whom the credit rating agencies have outsourced certain functions or activities, and other persons otherwise related or connected to credit rating agencies or credit rating activities. Such persons should include shareholders or members of the supervisory or administrative boards of the credit rating agencies and rated entities.

- (57) The provisions of this Regulation regarding supervisory fees should be without prejudice to relevant provisions of national law governing supervisory or similar fees.
- (58) It is appropriate to create a mechanism to ensure the effective enforcement of this Regulation. The competent authorities of the Member States should have at their disposal the necessary means to ensure that ratings issued in the Community are issued in compliance with this Regulation. The use of these supervisory measures should always be coordinated within the relevant college. Measures such as the withdrawal of registration or the suspension of the use for regulatory purposes of credit ratings should be imposed when they are considered to be proportionate to the significance of the breach of the obligations arising from this Regulation. In exercising their supervisory powers, competent authorities should have due regard to the interests of investors and market stability. Since the independence of a credit rating agency in the process of issuing its credit ratings should be preserved, neither the competent authorities nor the Member States should interfere in relation to the substance of credit ratings and the methodologies by which a credit rating agency determines credit ratings in order to avoid credit ratings to be compromised. In the event that a credit rating agency is subjected to pressure, it should notify the Commission and CESR. The Commission should examine on a case-by-case basis whether further action is to be taken against the Member State concerned for failure to comply with its obligations under this Regulation.
- (59) It is desirable to ensure that decision-making referred to in this Regulation be based on close cooperation between the Member States' competent authorities, and the adoption of the registration decisions should therefore take place on the basis of an agreement. This is a necessary prerequisite for the efficient process of registration and performance of supervision. The decision-making should be effective, expeditious and consensual.
- (60) For the efficiency of supervision and in order to avoid duplication of tasks, the competent authorities of the Member States should cooperate.
- (61) It is also important to provide for exchange of information between competent authorities responsible for supervision of credit rating agencies under this Regulation and competent authorities supervising financial institutions, in particular those responsible for prudential supervision or financial stability in the Member States.
- (62) The competent authorities of Member States other than the competent authority of the home Member State should be able to intervene and take appropriate supervisory measures, after informing CESR and the competent authority of the home Member State and after consulting the relevant college in the event that they have established that a registered credit rating agency whose ratings are used within their territory breaches the obligations arising from this Regulation.
- (63) Unless this Regulation provides for a specific procedure as regards registration, certification or withdrawal thereof, the adoption of supervisory measures or the performance of supervisory powers, the national law governing such procedures including linguistic regimes, professional secrecy and legal professional privilege, should apply and the rights of the credit rating agencies and other persons under that law should not be affected.
- (64) It is necessary to enhance convergence of the powers at the disposal of the competent authorities in order to achieve an equivalent intensity of enforcement across the internal market.
- (65) CESR should ensure coherence in the application of this Regulation. It should enhance and facilitate the cooperation and coordination of competent authorities in supervisory activities and issue guidance where appropriate. CESR should therefore establish a mediation mechanism and peer review in order to facilitate a coherent approach by the competent authorities.
- (66) Member States should lay down rules on penalties applicable to infringements of the provisions of this Regulation and ensure that they are implemented. Those penalties should be effective, proportionate and dissuasive and should at least cover cases of gross professional misconduct and lack of due diligence. It should be possible for Member States to provide for administrative or criminal penalties. CESR should establish guidelines on the convergence of practices relating to such penalties.
- (67) Any exchange or transmission of information between competent authorities, other authorities, bodies or persons should be in accordance with the rules on transfer of personal data as laid down in Directive 95/46/EC.
- (68) This Regulation should also provide for rules relating to exchange of information with competent authorities in third countries, particularly with those responsible for the supervision of the credit rating agencies involved in endorsement and certification.

- (69) Without prejudice to the application of Community law, any claim against credit rating agencies in relation to any infringement of the provisions of this Regulation should be made in accordance with the applicable national law on civil liability.
- (70) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission.
- (71) In particular, the Commission should be empowered, while taking account of international developments, to amend Annexes I and II, which lay down the specific criteria for assessing the compliance of a credit rating agency with its duties in terms of internal organisation, operational arrangements, rules on employees, presentation of credit ratings and disclosure, and to specify or amend the criteria for determining the equivalence of the regulatory and supervisory legal framework of third countries with the provisions of this Regulation. Since those measures are of general scope and are designed to amend non-essential elements of this Regulation, *inter alia*, by supplementing it with new non-essential elements, they must be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC.
- (72) With a view to taking into account further developments in the financial markets, the Commission should submit a report to the European Parliament and the Council assessing the application of this Regulation, in particular the regulatory reliance on credit ratings as well as the appropriateness of the remuneration of the credit rating agency by the rated entity. In the light of that assessment, the Commission should put forward appropriate legislative proposals.
- (73) The Commission should also submit a report to the European Parliament and the Council assessing incentives for issuers to use credit rating agencies established in the Community for a proportion of their ratings, possible alternatives to the ‘issuer-pays’ model including the creation of a public Community credit rating agency, and convergence of national rules concerning infringements of the provisions of this Regulation. In the light of that assessment, the Commission should put forward appropriate legislative proposals.
- (74) The Commission should also submit a report to the European Parliament and the Council assessing developments in the regulatory and supervisory framework for credit rating agencies in third countries and the effects of those developments and of transitional provisions referred to in this Regulation on the stability of the financial markets in the Community.
- (75) Since the objective of this Regulation, namely to ensure a high level of consumer and investor protection by laying down a common framework with regard to the quality of credit ratings to be issued in the internal market, cannot be sufficiently achieved by the Member States, given the current scarcity of national legislation in this field and the fact that the majority of existing credit rating agencies are established outside the Community, and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective,

HAVE ADOPTED THIS REGULATION:

## TITLE I

### SUBJECT MATTER, SCOPE AND DEFINITIONS

#### *Article 1*

#### **Subject matter**

This Regulation introduces a common regulatory approach in order to enhance the integrity, transparency, responsibility, good governance and independence of credit rating activities, contributing to the quality of credit ratings issued in the Union and to the smooth functioning of the internal market, while achieving a high level of consumer and investor protection. It lays down conditions for the issuing of credit ratings and rules on the organisation and conduct of credit rating agencies, including their shareholders and members, to promote credit rating agencies’ independence, the avoidance of conflicts of interest, and the enhancement of consumer and investor protection.

This Regulation also lays down obligations for issuers and related third parties established in the Union regarding securitisation instruments.

  - (iv) do not relate to financial instruments issued by the respective central banks' Member States.

3.....

4. In order to ensure the uniform application of paragraph 2(d), the Commission may, upon submission of a request by a Member State, in accordance with the regulatory procedure referred to in Article 38(3) and in accordance with paragraph 2(d) of this Article, adopt a decision stating that a central bank falls within the scope of that point and that its credit ratings are therefore exempt from the application of this Regulation.

The Commission shall publish on its website the list of central banks falling within the scope of paragraph 2(d) of this Article.

#### *Article 4*

#### **Use of credit ratings**

1. Credit institutions, investment firms, insurance undertakings, reinsurance undertakings, institutions for occupational retirement provision, management companies, investment companies, alternative investment fund managers and central counterparties may use credit ratings for regulatory purposes only if they are issued by credit rating agencies established in the Union and registered in accordance with this Regulation.

Where a prospectus contains a reference to a credit rating or credit ratings, the issuer, offeror, or person asking for admission to trading on a regulated market shall ensure that the prospectus also includes clear and prominent information stating whether or not such credit ratings are issued by a credit rating agency established in the Union and registered under this Regulation.

2. A credit rating agency established in the Union and registered in accordance with this Regulation shall be deemed to have issued a credit rating when the credit rating has been published on the credit rating agency’s website or by other means or distributed by subscription and presented and disclosed in accordance with the obligations of Article 10, clearly identifying that the credit rating is endorsed in accordance with paragraph 3 of this Article.

3. A credit rating agency established in the Union and registered in accordance with this Regulation may endorse a credit rating issued in a third country only when credit rating activities resulting in the issuing of such a credit rating comply with the following conditions:

- (a) the credit rating activities resulting in the issuing of the credit rating to be endorsed are undertaken in whole or in part by the endorsing credit rating agency or by credit rating agencies belonging to the same

group;

- (b) the credit rating agency has verified and is able to demonstrate on an ongoing basis to the European Supervisory Authority (European Securities and Markets Authority) (ESMA) established by Regulation (EU) No 1095/2010 of the European Parliament and of the Council, that the conduct of the credit rating activities by the third-country credit rating agency resulting in the issuing of the credit rating to be endorsed fulfils requirements which are at least as stringent as the requirements set out in Articles 6 to 12 and Annex I, with the exception of Articles 6a, 6b, 8a, 8b, 8c and 11a, point (ba) of point 3 and points 3a and 3b of Section B of Annex I.
- (c) the ability of ESMA to assess and monitor the compliance of the credit rating agency established in the third country with the requirements referred to in point (b) is not limited;
- (d) the credit rating agency makes available on request to ESMA all the information necessary to enable ESMA to supervise on an ongoing basis the compliance with the requirements of this Regulation;

- (h) there is an appropriate cooperation arrangement between ESMA and the relevant supervisory authority of the credit rating agency established in a third country. ESMA shall ensure that such a cooperation arrangement shall specify at least:
  - (i) the mechanism for the exchange of information between ESMA and the relevant supervisory authority of the credit rating agency established in a third country; and
  - (ii) the procedures concerning the coordination of supervisory activities in order to enable ESMA to monitor credit rating activities resulting in the issuing of the endorsed credit rating on an ongoing basis.

4. A credit rating endorsed in accordance with paragraph 3 shall be considered to be a credit rating issued by a credit rating agency established in the Union and registered in accordance with this Regulation.

A credit rating agency established in the Union and registered in accordance with this Regulation shall not use such endorsement with the intention of avoiding the requirements of this Regulation.

5. The credit rating agency that has endorsed a credit rating issued in a third country in accordance with paragraph 3 shall remain fully responsible for such a credit rating and for the fulfilment of conditions set out therein.

6. Where the Commission has recognised, in accordance with Article 5(6), the legal and supervisory framework of a third country as equivalent to the requirements of this Regulation and the cooperation arrangements referred to in Article 5(7) are operational, the credit rating agency endorsing credit ratings issued in that third country shall no longer be required to verify or demonstrate that the condition laid down in paragraph 3(g) of this Article is fulfilled.

## *Article 5*

### **Equivalence and certification based on equivalence**

1. The credit ratings that are related to entities established or financial instruments issued in third countries and that are issued by a credit rating agency established in a third country may be used in the [F1Union] under Article 4(1) without being endorsed in accordance with Article 4(3), provided that:

- (a) the credit rating agency is authorised or registered in and is subject to supervision in that third country;

- (b) the Commission has adopted an equivalence decision in accordance with paragraph 6 of this Article, recognising the legal and supervisory framework of that third country as equivalent to the requirements of this Regulation;
- (c) the cooperation arrangements referred to in paragraph 7 of this Article are operational;
- (d) the credit ratings issued by the credit rating agency and its credit rating activities are not of systemic importance to the financial stability or integrity of the financial markets of one or more Member States; and
- (e) the credit rating agency is certified in accordance with paragraph 2 of this Article.

2. The credit rating agency referred to in paragraph 1 may apply for certification. The application shall be submitted to ESMA in accordance with the relevant provisions of Article 15.

3. ESMA shall examine and decide on the application for certification in accordance with the procedure set out in Article 16. The certification decision shall be based on the criteria set out in points (a) to (d) of paragraph 1 of this Article.

The certification decision shall be notified and published in accordance with Article 18.

4. The credit rating agency referred to in paragraph 1 may also apply to be exempted:

- (a) on a case-by-case basis from complying with some or all of the requirements set out in Section A of Annex I and Article 7(4) if the credit rating agency is able to demonstrate that the requirements are not proportionate in view of the nature, scale and complexity of its business and the nature and range of its issuing of credit ratings;
- (b) from the requirement of physical presence in the Union where such a requirement would be too burdensome and disproportionate in view of the nature, scale and complexity of its business and the nature and range of its issuing of credit ratings.

An application for an exemption under point (a) or (b) of the first subparagraph shall be submitted by the credit rating agency together with the application for certification. When assessing such an application, ESMA shall take into consideration the size of the credit rating agency referred to in paragraph 1, having regard to the nature, scale and complexity of its business and the nature and range of its issuing of credit ratings, as well as the impact of the credit ratings issued by the credit rating agency on the financial stability and integrity of the financial markets of one or more Member States. On the basis of those considerations, ESMA may grant such exemption to the credit rating agency referred to in paragraph 1.

5.....

6. The Commission may adopt an equivalence decision in accordance with the regulatory procedure referred to in Article 38(3), stating that the legal and supervisory framework of a third country ensures that credit rating agencies authorised or registered in that third country comply with legally binding requirements which are equivalent to the requirements resulting from this Regulation and which are subject to effective supervision and enforcement in that third country.

A third-country legal and supervisory framework may be considered equivalent to this Regulation if that framework fulfils at least the following conditions:

- (a) credit rating agencies in that third country are subject to authorisation or registration and are subject to effective supervision and enforcement on an ongoing basis;
- (b) credit rating agencies in that third country are subject to legally binding rules which are equivalent to those set out in Articles 6 to 12 and Annex I, with the exception of Articles 6a, 6b, 8a, 8b, 8c and 11a, point (ba) of point 3 and points 3a and 3b of Section B of Annex I; and
- (c) the regulatory regime in that third country prevents interference by the supervisory authorities and other public authorities of that third country with the content of credit ratings and methodologies.

In order to take account of developments on financial markets, the Commission shall adopt, by means of delegated acts in accordance with Article 38a, and subject to the conditions of Articles 38b and 38c, measures to specify further or amend the criteria set out in points (a), (b) and (c) of the second subparagraph

of this paragraph.

7. ESMA shall establish cooperation agreements with the relevant supervisory authorities of third countries whose legal and supervisory frameworks have been considered equivalent to this Regulation in accordance with paragraph 6. Such arrangements shall specify at least:

- (a) the mechanism for the exchange of information between ESMA and the relevant supervisory authorities of the third countries concerned; and
- (b) the procedures concerning the coordination of supervisory activities.

8. Articles 20, 23b and 24 shall apply to credit rating agencies certified in accordance with Article 5(3) and to credit ratings issued by them.

#### *Article 5a*

### **Over-reliance on credit ratings by financial institutions**

1. The entities referred to in the first subparagraph of Article 4(1) shall make their own credit risk assessment and shall not solely or mechanically rely on credit ratings for assessing the creditworthiness of an entity or financial instrument.

2. Sectoral competent authorities in charge of supervising the entities referred to in the first subparagraph of Article 4(1) shall, taking into account the nature, scale and complexity of their activities, monitor the adequacy of their credit risk assessment processes, assess the use of contractual references to credit ratings and, where appropriate, encourage them to mitigate the impact of such references, with a view to reducing sole and mechanistic reliance on credit ratings, in line with specific sectoral legislation.

#### *Article 5b*

### **Reliance on credit ratings by the European Supervisory Authorities and the European Systemic Risk Board**

1. The European Supervisory Authority (European Banking Authority) (EBA) established by Regulation (EU) No 1093/2010 of the European Parliament and of the Council, the European Supervisory Authority (European Insurance and Occupational Pensions Authority) (EIOPA) established by Regulation (EU) No 1094/2010 of the European Parliament and of the Council and ESMA shall not refer to credit ratings in their guidelines, recommendations and draft technical standards where such references have the potential to trigger sole or mechanistic reliance on credit ratings by the competent authorities, the sectoral competent authorities, the entities referred to in the first subparagraph of Article 4(1) or other financial market participants. Accordingly, by 31 December 2013, EBA, EIOPA and ESMA shall review and remove, where appropriate, all such references to credit ratings in existing guidelines and recommendations.

2. The European Systemic Risk Board (ESRB) established by Regulation (EU) No 1092/2010 of the European Parliament and of the Council of 24 November 2010 on European Union macro-prudential oversight of the financial system and establishing a European Systemic Risk Board shall not refer to credit ratings in its warnings and recommendations where such references have the potential to trigger sole or mechanistic reliance on credit ratings.

## *Article 5c*

### **Over-reliance on credit ratings in Union law**

Without prejudice to its right of initiative, the Commission shall continue to review whether references to credit ratings in Union law trigger or have the potential to trigger sole or mechanistic reliance on credit ratings by the competent authorities, the sectoral competent authorities, the entities referred to in the first subparagraph of Article 4(1) or other financial market participants with a view to deleting all references to credit ratings in Union law for regulatory purposes by 1 January 2020, provided that appropriate alternatives to credit risk assessment have been identified and implemented.

## **TITLE II**

### **ISSUING OF CREDIT RATINGS**

#### *Article 6*

### **Independence and avoidance of conflicts of interest**

1. A credit rating agency shall take all necessary steps to ensure that the issuing of a credit rating or a rating outlook is not affected by any existing or potential conflicts of interest or business relationship involving the credit rating agency issuing the credit rating or the rating outlook, its shareholders, managers, rating analysts, employees or any other natural person whose services are placed at the disposal or under the control of the credit rating agency, or any person directly or indirectly linked to it by control.

2. In order to ensure compliance with paragraph 1, a credit rating agency shall comply with the requirements set out in Sections A and B of Annex I.

3. At the request of a credit rating agency, ESMA may exempt a credit rating agency from complying with the requirements of points 2, 5, 6 and 9 of Section A of Annex I and Article 7(4) if the credit rating agency is able to demonstrate that those requirements are not proportionate in view of the nature, scale and complexity of its business and the nature and range of issue of credit ratings and that:

- (a) the credit rating agency has fewer than 50 employees;
- (b) the credit rating agency has implemented measures and procedures, in particular internal control mechanisms, reporting arrangements and measures ensuring independence of rating analysts and persons approving credit ratings, which ensure the effective compliance with the objectives of this Regulation; and
- (c) the size of the credit rating agency is not determined in such a way as to avoid compliance with the requirements of this Regulation by a credit rating agency or a group of credit rating agencies.

In the case of a group of credit rating agencies, ESMA shall ensure that at least one of the credit rating agencies in the group is not exempted from complying with the requirements of points 2, 5 and 6 of Section A of Annex I and Article 7(4).

4. Credit rating agencies shall establish, maintain, enforce and document an effective internal control structure governing the implementation of policies and procedures to prevent and mitigate possible conflicts of interest and to ensure the independence of credit ratings, rating analysts and rating teams regarding shareholders, administrative and management bodies and sales and marketing activities. Credit rating agencies shall establish standard operating procedures (SOPs) with regard to corporate governance, organisation, and the management of conflicts of interest. They shall periodically monitor and review those SOPs in order to evaluate their effectiveness and assess whether they should be updated.

## *Article 6a*

### **Conflicts of interest concerning investments in credit rating agencies**

1. A shareholder or a member of a credit rating agency holding at least 5 % of either the capital or the voting rights in that credit rating agency or in a company which has the power to exercise control or a dominant influence over that credit rating agency, shall be prohibited from:

- (a) holding 5 % or more of the capital of any other credit rating agency;
- (b) having the right or the power to exercise 5 % or more of the voting rights in any other credit rating agency;
- (c) having the right or the power to appoint or remove members of the administrative or supervisory board of any other credit rating agency;
- (d) being a member of the administrative or supervisory board of any other credit rating agency;
- (e) exercising or having the power to exercise control or a dominant influence over any other credit rating agency.

The prohibition referred to in point (a) of the first subparagraph does not apply to holdings in diversified collective investment schemes, including managed funds such as pension funds or life insurance, provided that the holdings in such schemes do not put the shareholder or member of a credit rating agency in a position to exercise significant influence on the business activities of those schemes.

2. This Article does not apply to investments in other credit rating agencies belonging to the same group of credit rating agencies.

## *Article 6b*

### **Maximum duration of the contractual relationship with a credit rating agency**

1. Where a credit rating agency enters into a contract for the issuing of credit ratings on re-securitisations, it shall not issue credit ratings on new re-securitisations with underlying assets from the same originator for a period exceeding four years.

2. Where a credit rating agency enters into a contract for rating re-securitisations, it shall request that the issuer:

- (a) determine the number of credit rating agencies which have a contractual relationship for the issuing of credit ratings on re-securitisations with underlying assets from the same originator;
- (b) calculate the percentage of the total number of outstanding rated re-securitisations with underlying assets from the same originator for which each credit rating agency issues credit ratings.

Where at least four credit rating agencies each rate more than 10 % of the total number of outstanding rated re-securitisations, the limitations set out in paragraph 1 shall not apply.

The exemption set out in the second subparagraph shall continue to apply at least until the credit rating agency enters into a new contract for rating re-securitisations with underlying assets from the same originator. Where the criteria set out in the second subparagraph are not met when entering into such a contract, the period referred to in paragraph 1 shall be calculated from the date on which the new contract was entered into.

3. As from the expiry of a contract pursuant to paragraph 1, a credit rating agency shall not enter into a new contract for the issuing of credit ratings on re-securitisations with underlying assets from the same originator for a period equal to the duration of the expired contract but not exceeding four years.

The first subparagraph shall also apply to:

- (a) a credit rating agency belonging to the same group of credit rating agencies as the credit rating agency referred to in paragraph 1;
- (b) a credit rating agency which is a shareholder or member of the credit rating agency referred to in paragraph 1;
- (c) a credit rating agency in which the credit rating agency referred to in paragraph 1 is a shareholder or member.

4. Notwithstanding paragraph 1, where a credit rating of a re-securitisation is issued before the end of the maximum duration of the contractual relationship as referred to in paragraph 1, a credit rating agency may continue to monitor and update those credit ratings, on a solicited basis, for the duration of the re-securitisation.

5. This Article shall not apply to credit rating agencies that have fewer than 50 employees at group level involved in the provision of credit rating activities, or that have an annual turnover generated from credit rating activities of less than EUR 10 million at group level.

6. Where a credit rating agency enters into a contract for the issuing of credit ratings on re-securitisations before 20 June 2013, the period referred to in paragraph 1 shall be calculated from that date.

## *Article 7*

### **Rating analysts, employees and other persons involved in the issuing of credit ratings**

1. A credit rating agency shall ensure that rating analysts, its employees and any other natural person whose services are placed at its disposal or under its control and who are directly involved in credit rating activities have appropriate knowledge and experience for the duties assigned.

2. A credit rating agency shall ensure that persons referred to in paragraph 1 shall not be allowed to initiate or participate in negotiations regarding fees or payments with any rated entity, related third party or any person directly or indirectly linked to the rated entity by control.

3. A credit rating agency shall ensure that persons referred to in paragraph 1 meet the requirements set out in Section C of Annex I.

3. The officials of and other persons authorised by ESMA to conduct an on-site inspection shall exercise their powers upon production of a written authorisation specifying the subject matter and purpose of the inspection, and the periodic penalty payments provided for in Article 36b where the persons concerned do not submit to the inspection. In good time before the inspection, ESMA shall give notice of the inspection to the competent authority of the Member State where it is to be conducted.
4. The persons referred to in Article 23b(1) shall submit to on-site inspections ordered by decision of ESMA. The decision shall specify the subject matter and purpose of the inspection, specify the date on which it is to begin and indicate the periodic penalty payments provided for in Article 36b, the legal remedies available under Regulation (EU) No 1095/2010 as well as the right to have the decision reviewed by the Court of Justice of the European Union. ESMA shall take such decisions after consulting the competent authority of the Member State where the inspection is to be conducted.
5. Officials of, as well as those authorised or appointed by, the competent authority of the Member State where the inspection is to be conducted shall, upon the request of ESMA, actively assist the officials of and other persons authorised by ESMA. To that end, they shall enjoy the powers set out in paragraph 2. Officials of the competent authority of the Member State concerned may also attend the on-site inspections upon request.
6. ESMA may also require competent authorities to carry out specific investigatory tasks and on-site inspections as provided for in this Article and in Article 23c(1) on its behalf. To that end, competent authorities shall enjoy the same powers as ESMA as set out in this Article and in Article 23c(1).
7. Where the officials of and other accompanying persons authorised by ESMA find that a person opposes an inspection ordered pursuant to this Article, the competent authority of the Member State concerned shall afford them the necessary assistance, requesting, where appropriate, the assistance of the police or of an equivalent enforcement authority, so as to enable them to conduct their on-site inspection.
8. If the on-site inspection provided for in paragraph 1 or the assistance provided for in paragraph 7 requires authorisation by a judicial authority according to national rules, such authorisation shall be applied for. Such authorisation may also be applied for as a precautionary measure.
9. Where authorisation as referred to in paragraph 8 is applied for, the national judicial authority shall control that the decision of ESMA is authentic and that the coercive measures envisaged are neither arbitrary nor excessive having regard to the subject matter of the inspection. In its control of the proportionality of the coercive measures, the national judicial authority may ask ESMA for detailed explanations, in particular relating to the grounds ESMA has for suspecting that an infringement of this Regulation has taken place and the seriousness of the suspected infringement and the nature of the involvement of the person subject to the coercive measures. However, the national judicial authority shall not review the necessity for the inspection or demand to be provided with the information on ESMA's file. The lawfulness of ESMA's decision shall be subject to review only by the Court of Justice of the European Union following the procedure set out in Regulation (EU) No 1095/2010.

## *Article 23e*

## **Procedural rules for taking supervisory measures and imposing fines**

1. Where, in carrying out its duties under this Regulation, ESMA finds that there are serious indications of the possible existence of facts liable to constitute one or more of the infringements listed in Annex III, ESMA shall appoint an independent investigating officer within ESMA to investigate the matter. The investigating officer shall not be involved or have been involved in the direct or indirect supervision or registration process of the credit rating agency concerned and shall perform his functions independently from ESMA's Board of Supervisors.

2. The investigating officer shall investigate the alleged infringements, taking into account any comments submitted by the persons subject to investigation, and shall submit a complete file with his findings to ESMA's Board of Supervisors.

In order to carry out his tasks, the investigating officer may exercise the power to require information in accordance with Article 23b and to conduct investigations and on-site inspections in accordance with Articles 23c and 23d. When using those powers, the investigating officer shall comply with Article 23a.

Where carrying out his tasks, the investigating officer shall have access to all documents and information gathered by ESMA in its supervisory activities.

3. Upon completion of his investigation and before submitting the file with his findings to ESMA's Board of Supervisors, the investigating officer shall give the persons subject to investigation the opportunity to be heard on the matters being investigated. The investigating officer shall base his findings only on facts on which the persons subject to investigation have had the opportunity to comment.

The rights of defence of the persons concerned shall be fully respected during investigations under this Article.

4. When submitting the file with his findings to ESMA's Board of Supervisors, the investigating officer shall notify that fact to the persons subject to investigation. The persons subject to investigation shall be entitled to have access to the file, subject to the legitimate interest of other persons in the protection of their business secrets. The right of access to the file shall not extend to confidential information affecting third parties.

5. On the basis of the file containing the investigating officer's findings and, when requested by the persons concerned, after having heard the persons subject to investigation in accordance with Articles 25 and 36c, ESMA's Board of Supervisors shall decide if one or more of the infringements listed in Annex III has been committed by the persons who have been subject to investigation, and in such case, shall take a supervisory measure in accordance with Article 24 and impose a fine in accordance with Article 36a.

6. The investigating officer shall not participate in the deliberations of ESMA's Board of Supervisors or in any other way intervene in the decision-making process of ESMA's Board of Supervisors.

7. The Commission shall adopt further rules of procedure for the exercise of the power to impose fines or periodic penalty payments, including provisions on rights of defence, temporal provisions, and the collection of fines or periodic penalty payments, and shall adopt detailed rules on the limitation periods for the imposition and enforcement of penalties.

The rules referred to in the first subparagraph shall be adopted by means of delegated acts in accordance with Article 38a and subject to the conditions of Articles 38b and 38c.

8. ESMA shall refer matters for criminal prosecution to the relevant national authorities where, in carrying out its duties under this Regulation, it finds that there are serious indications of the possible existence of facts liable to constitute criminal offences. In addition, ESMA shall refrain from imposing fines or periodic penalty payments where a prior acquittal or conviction arising from identical facts, or from facts which are substantially the same, has acquired the force of *res judicata* as the result of criminal proceedings under national law.

## **Supervisory measures by ESMA**

1. Where, in accordance with Article 23e(5), ESMA's Board of Supervisors finds that a credit rating agency has committed one of the infringements listed in Annex III, it shall take one or more of the following decisions:

- (b) temporarily prohibit the credit rating agency from issuing credit ratings with effect throughout the Union, until the infringement has been brought to an end;

3. Before taking the decisions referred to in points (a), (b) and (c) of paragraph 1, ESMA's Board of Supervisors shall inform EBA and EIOPA thereof.

4. Credit ratings may continue to be used for regulatory purposes following the adoption of the decisions referred to in points (a) and (c) of paragraph 1 during a period not exceeding:

- (b) three months from the date ESMA's decision is made public under paragraph 5 if there are no credit ratings of the same financial instrument or entity issued by other credit rating agencies registered under this Regulation.

ESMA's Board of Supervisors may extend, including following a request by EBA or EIOPA, the period referred to in point (b) of the first subparagraph by three months in exceptional circumstances relating to the potential for market disruption or financial instability.

5. It shall make public any such decision on its website within 10 working days from the date when it was adopted.

When making public its decision as referred to in the first subparagraph, ESMA's Board of Supervisors shall also make public the right for the credit rating agency concerned to appeal the decision, the fact, where relevant, that such an appeal has been lodged, specifying that such an appeal does not have suspensive effect, and the fact that it is possible for the Board of Appeal to suspend the application of the contested decision in accordance with Article 60(3) of Regulation (EU) No 1095/2010.

### *Article 25*

## **Hearing of the persons concerned**

1. Before taking any decision under Article 24(1), ESMA's Board of Supervisors shall give the persons subject to the proceedings the opportunity to be heard on ESMA's findings. ESMA's Board of Supervisors shall base its decisions only on findings on which the persons subject to the proceedings have had the opportunity to comment.

The first subparagraph shall not apply if urgent action is needed in order to prevent significant and imminent damage to the financial system. In such a case ESMA's Board of Supervisors may adopt an interim decision and shall give the persons concerned the opportunity to be heard as soon as possible after taking its decision.

2. The rights of defence of the persons subject to the proceedings shall be fully respected during the proceedings. They shall be entitled to have access to ESMA's file, subject to the legitimate interest of other persons in the protection of their business secrets. The right of access to the file shall not extend to confidential information.

Such specific supervisory tasks may, in particular, include the power to request information in accordance with Article 23b and to conduct investigations and on-site inspections in accordance with Article 23d(6).

*Article 31*

**Notifications and suspension requests by competent authorities**

1. Where a competent authority of a Member State finds that acts contrary to this Regulation are being, or have been, carried out on the territory of its own or of another Member State, it shall give notice of that fact in as specific a manner as possible to ESMA. Where the competent authority considers it appropriate for investigatory purposes, the competent authority may also suggest to ESMA that it assess the need to use the powers under Articles 23b and 23c in relation to the credit rating agency involved in those acts.

ESMA shall take appropriate action. It shall inform the notifying competent authority of the outcome and, as far as possible, of any significant interim developments.

2. Without prejudice to the duty to notify set out in paragraph 1, where the notifying competent authority of a Member State considers that a registered credit rating agency, whose credit ratings are used within the territory of that Member State, breaches the obligations arising from this Regulation and the infringements are sufficiently serious and persistent to have a significant impact on the protection of investors or on the stability of the financial system in that Member State, the notifying competent authority may request that ESMA suspend the use, for regulatory purposes, of credit ratings of the credit rating agency concerned by the financial institutions and other entities referred to in Article 4(1). The notifying competent authority shall provide ESMA with full reasons for its request.

Where ESMA considers that the request is not justified, it shall inform the notifying competent authority in writing, setting out the reasons. Where ESMA considers that the request is justified, it shall take the appropriate measures to resolve the issue.

### **CIVIL LIABILITY OF CREDIT RATING AGENCIES**

#### *Article 35a*

### **Civil liability**

1. Where a credit rating agency has committed, intentionally or with gross negligence, any of the infringements listed in Annex III having an impact on a credit rating, an investor or issuer may claim damages from that credit rating agency for damage caused to it due to that infringement.

An investor may claim damages under this Article where it establishes that it has reasonably relied, in accordance with Article 5a(1) or otherwise with due care, on a credit rating for a decision to invest into, hold onto or divest from a financial instrument covered by that credit rating.

An issuer may claim damages under this Article where it establishes that it or its financial instruments are covered by that credit rating and the infringement was not caused by misleading and inaccurate information provided by the issuer to the credit rating agency, directly or through information publicly available.

2. It shall be the responsibility of the investor or issuer to present accurate and detailed information indicating that the credit rating agency has committed an infringement of this Regulation, and that that infringement had an impact on the credit rating issued.

What constitutes accurate and detailed information shall be assessed by the competent national court, taking into consideration that the investor or issuer may not have access to information which is purely within the sphere of the credit rating agency.

3. The civil liability of credit rating agencies, as referred to in paragraph 1, shall only be limited in advance where that limitation is:

- (a) reasonable and proportionate; and
- (b) allowed by the applicable national law in accordance with paragraph 4.

Any limitation that does not comply with the first subparagraph, or any exclusion of civil liability shall be deprived of any legal effect.

4. Terms such as ‘ damage ’ , ‘ intention ’ , ‘ gross negligence ’ , ‘ reasonably relied ’ , ‘ due care ’ , ‘ impact ’ , ‘ reasonable ’ and ‘ proportionate ’ which are referred to in this Article but are not defined, shall be interpreted and applied in accordance with the applicable national law as determined by the relevant rules of private international law. Matters concerning the civil liability of a credit rating agency which are not covered by this Regulation shall be governed by the applicable national law as determined by the relevant rules of private international law. The court that is competent to decide on a claim for civil liability brought by an investor or issuer shall be determined by the relevant rules of private international law.

5. This Article does not exclude further civil liability claims in accordance with national law.

6. The right of redress set out in this Article shall not prevent ESMA from fully performing its powers as laid down in Article 36a.

### **PENALTIES, COMMITTEE PROCEDURE, REPORTING AND TRANSITIONAL AND FINAL PROVISIONS**

#### ***CHAPTER I***

Penalties, fines, periodic penalty payments, committee procedure, delegated powers and reporting

Member States shall lay down the rules on penalties applicable to infringements of Article 4(1) and shall take all measures necessary to ensure that they are implemented. The penalties provided for shall be effective, proportionate and dissuasive.

Member States shall ensure that the sectoral competent authority disclose to the public every penalty that has been imposed for infringements of Article 4(1), unless such disclosure would seriously jeopardise the financial markets or cause disproportionate damage to the parties involved.

By 7 December 2010 the Member States shall notify the rules referred to in the first subparagraph to the Commission. They shall notify the Commission without delay of any subsequent amendment thereto.

#### *Article 36a*

##### **Fines**

1. Where, in accordance with Article 23e(5), ESMA's Board of Supervisors finds that a credit rating agency has, intentionally or negligently, committed one of the infringements listed in Annex III, it shall adopt a decision imposing a fine in accordance with paragraph 2.

An infringement by a credit rating agency shall be considered to have been committed intentionally if ESMA finds objective factors which demonstrate that the credit rating agency or its senior management acted deliberately to commit the infringement.

2. The basic amount of the fines referred to in paragraph 1 shall be included within the following limits:

- (a) for the infringements referred to in points 1 to 5, 11 to 15, 19, 20, 23, 26a to 26d, 28, 30, 32, 33, 35, 41, 43, 50, 51 and 55 to 62 of Section I of Annex III, the fines shall amount to at least EUR 500 000 and shall not exceed EUR 750 000 ;
- (b) for the infringements referred to in points 6, 7, 8, 16, 17, 18, 21, 22, 22a, 24, 25, 27, 29, 31, 34, 37 to 40, 42, 42a, 42b, 45 to 49a, 52, 53 and 54 of Section I of Annex III, the fines shall amount to at least EUR 300 000 and shall not exceed EUR 450 000 ;
- (c) for the infringements referred to in points 9, 10, 26, 36, 44 and 53 of Section I of Annex III, the fines shall amount to at least EUR 100 000 and shall not exceed EUR 200 000 ;
- (d) for the infringements referred to in points 1, 6, 7, 8 and 9 of Section II of Annex III, the fines shall amount to at least EUR 50 000 and shall not exceed EUR 150 000 ;
- (e) for the infringements referred to in points 2, 3a to 5 of Section II of Annex III, the fines shall amount to at least EUR 25 000 and shall not exceed EUR 75 000 ;
- (f) for the infringements referred to in point 3 of Section II of Annex III, the fines shall amount to at least EUR 10 000 and shall not exceed EUR 50 000 ;
- (g) for the infringements referred to in points 1 to 3 and 11 of Section III of Annex III, the fines shall amount to at least EUR 150 000 and shall not exceed EUR 300 000 ;
- (h) for the infringements referred to in point 20a of Section I of Annex III, points 4 to 4c, 6, 8 and 10 of Section III of Annex III, the fines shall amount to at least EUR 90 000 and shall not exceed EUR 200 000 ;
- (i) for the infringements referred to in points 5, 7 and 9 of Section III of Annex III, the fines shall amount to at least EUR 40 000 and shall not exceed EUR 100 000 .

In order to decide whether the basic amount of the fines should be set at the lower, the middle or the higher end of the limits set out in the first subparagraph, ESMA shall have regard to the annual turnover in the preceding business year of the credit rating agency concerned. The basic amount shall be at the lower end of the limit for credit rating agencies whose annual turnover is below EUR 10 million, the middle of the limit for the credit rating agencies whose annual turnover is between EUR 10 and 50 million and the higher end of the limit for the credit rating agencies whose annual turnover is higher than EUR 50 million.

3. The basic amounts defined within the limits set out in paragraph 2 shall be adjusted, if need be, by taking into account aggravating or mitigating factors in accordance with the relevant coefficients set out in Annex IV.

The relevant aggravating coefficient shall be applied one by one to the basic amount. If more than one aggravating coefficient is applicable, the difference between the basic amount and the amount resulting from the application of each individual aggravating coefficient shall be added to the basic amount.

The relevant mitigating coefficient shall be applied one by one to the basic amount. If more than one mitigating coefficient is applicable, the difference between the basic amount and the amount resulting from the application of each individual mitigating coefficient shall be subtracted from the basic amount.

4. Notwithstanding paragraphs 2 and 3, the fine shall not exceed 20 % of the annual turnover of the credit rating agency concerned in the preceding business year and, where the credit rating agency has directly or indirectly benefitted financially from the infringement, the fine shall be at least equal to that financial benefit.

Where an act or omission of a credit rating agency constitutes more than one infringement listed in Annex III, only the higher fine calculated in accordance with paragraphs 2 and 3 and related to one of those infringements shall apply.

#### *Article 36b*

#### **Periodic penalty payments**

1. ESMA's Board of Supervisors shall by decision impose a periodic penalty payment in order to compel:
  - (a) a credit rating agency to put an end to an infringement, in accordance with a decision taken pursuant to point (d) of Article 24(1);
  - (b) a person referred to in Article 23b(1) to supply complete information which has been required by a decision pursuant to Article 23b;
  - (c) a person referred to in Article 23b(1) to submit to an investigation and in particular to produce complete records, data, procedures or any other material required and to complete and correct other information provided in an investigation launched by a decision taken pursuant to Article 23c;
  - (d) a person referred to in Article 23b(1) to submit to an on-site inspection ordered by a decision taken pursuant to Article 23d.
2. A periodic penalty payment shall be effective and proportionate. The periodic penalty payment shall be imposed on a daily basis until the credit rating agency or person concerned complies with the relevant decision referred to in paragraph 1.
3. Notwithstanding paragraph 2, the amount of a periodic penalty payment shall be 3 % of the average daily turnover in the preceding business year or, in the case of natural persons, 2 % of the average daily income in the preceding calendar year. It shall be calculated from the date stipulated in the decision imposing the periodic penalty payment.
4. A periodic penalty payment may be imposed for a period of no more than six months following the notification of ESMA's decision.

ESMA's Board of Supervisors shall base its decisions only on findings on which the persons subject to the proceedings have had the opportunity to comment.
2. The rights of defence of the persons subject to the proceedings shall be fully respected during the proceedings. The right of access to the file shall not extend to confidential information or internal preparatory documents of ESMA.

#### *Article 36d*

#### **Disclosure, nature, enforcement and allocation of fines and periodic penalty payments**

1. ESMA shall disclose to the public every fine and periodic penalty payment that has been imposed pursuant to Articles 36a and 36b, unless such disclosure to the public would seriously jeopardise the financial markets or cause disproportionate damage to the parties involved.
2. Fines and periodic penalty payments imposed pursuant to Articles 36a and 36b shall be of an administrative nature.
3. Fines and periodic penalty payments imposed pursuant to Articles 36a and 36b shall be enforceable.

Enforcement shall be governed by the rules of civil procedure in force in the State in the territory of which it is carried out. The order for its enforcement shall be appended to the decision without other formality than verification of the authenticity of the decision by the authority which the government of each Member State shall designate for that purpose and shall make known to ESMA and to the Court of Justice of the European Union.

When those formalities have been completed on application by the party concerned, the latter may proceed to enforcement in accordance with the national law, by bringing the matter directly before the competent body.

Enforcement may be suspended only by a decision of the Court of Justice of the European Union. However, the courts of the Member State concerned shall have jurisdiction over complaints that enforcement is being carried out in an irregular manner.

4. The amounts of the fines and periodic penalty payments shall be allocated to the general budget of the European Union.
